Who answers the phone in your business?

We give a valuable first impression to both your customers and your prospects. We'll take all your calls while you or your staff are out doing business. Calls can be transferred through to you, messages can be taken if you prefer and we'll text or e-mail these to your mobile phone.

Let us help...

Business Visions can provide you with a call answering service from just £2.50 per day plus VAT. That's less for a whole year than one month's salary for a telephonist.

All your calls are answered within five rings, and there is no lunch break, tea break, holiday or sick leave to worry about.

"I have to say that we are very impressed by the services provided. Without exception everyone who has spoken to you has said how professionally you handle the calls; they would never know you were not actually in the office working for us."

"My PA doesn't just take a message, she sells my products to people who ring up to enquire about them, and regularly converts callers into provisional bookings by the time I even know they've rung. I genuinely feel that I have an additional member of the team who does their best for my business"

The best kind of business assistance - friendly and extremely professional. I would recommend Business Visions bookkeeping to any small to medium business because they are more than suppliers - they are trusted advisors.
